P1. Other Identifier: Research Support Building

***P2. Location:** ☒ Not for Publication ☐ Unrestricted

***a. County** Santa Clara

***b. USGS 7.5' Quad** San Francisco North, Calif. **Date:** 1995

***c. Address** 400 King Avenue

City Moffett Field

Zip 94035

***e. Other Locational Data:**

***P3a. Description:** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

Building N-213 is located at the northeast corner of Mark Avenue and Warner Road and is made up of an 100,600 sq. ft. industrial style building with a 1965 addition of similar size. The addition is located on the east side of the original building and does not have the same detailing as the original. Building N-213 is a two-story building with a concrete foundation, exposed concrete walls, and a flat roof. The original part of N-213 has simple massing with minimal ornamentation. It has simple, flat, horizontal concrete bands that run across each façade and one over three steel hopper windows that are sandwiched between the horizontal concrete bands. The windows are grouped in sets four and evenly spaced. The windows are separated by concrete piers with grooves that align with the window mullions. The addition has flat, concrete panels and even less ornamentation than the original. Windows in this part of the building are fixed aluminum. A massive exterior stair has been added on the northwest side.

This building appears to be in good condition.

***P3b. Resource Attributes:** (list attributes and codes) HP39— Other: Research and Development Facility
